5. Casual Employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on Leave Without Pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).

8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

Full-time employment of the Department of Agriculture numbered 55,348 on April 30, 1954, as compared with 55,032 on March 31, 1954. Part-time and intermittent employment totaled 13,822 as compared with 15,134 on March 31, 1954.

Total paid employment on April 30, 1954 was 69,170 a decrease of 996 since March 31, 1954. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The increase in the Forest Service was due to increased seasonal activities in the field. The decrease in the Foreign Agricultural Service was due to the mass transfer and conversion of Point IV employees to the Foreign Operations Administration.

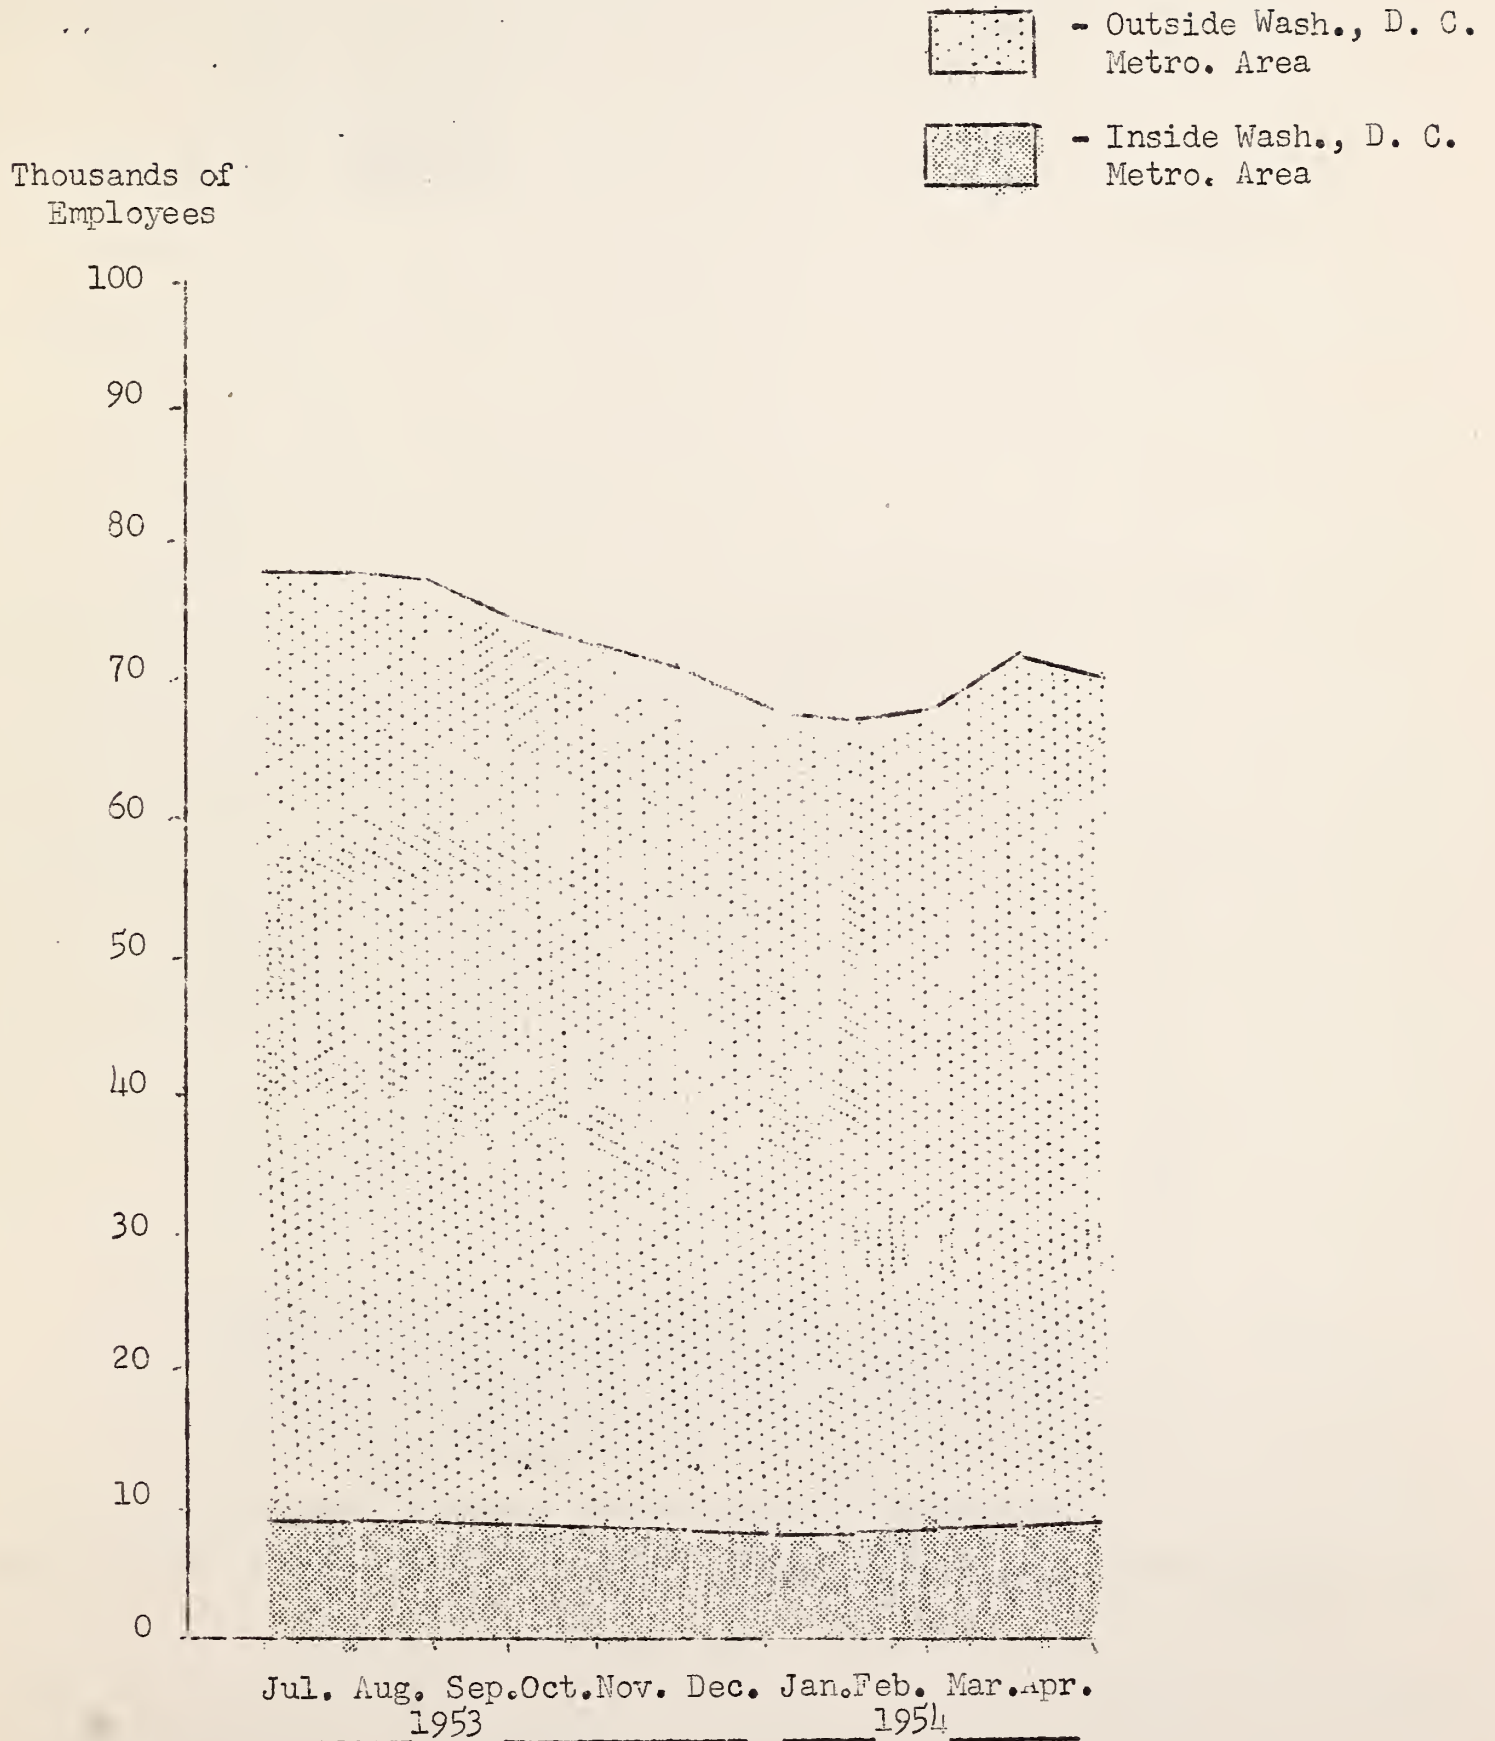

There were less Committeemen performing service during April which accounts for the decrease in the Farmers Home Administration.

3. Intermittent Employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W. O. C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual Employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on Leave Without Pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland, and Falls Church City.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

Full-time employment of the Department of Agriculture numbered 63,488 on July 31, 1954, as compared with 62,878 on June 30, 1954. Part-time and intermittent employment totaled 13,279 as compared with 13,398 on June 30, 1954.

Total paid employment on July 31, 1954, was 76,767, an increase of 491 since June 30, 1954. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The increase in the Agricultural Marketing Service was due to employment of Tobacco Inspectors for the tobacco season. The increase in the Federal Crop Insurance Corporation was due to increased seasonal activities caused by droughts. The increase in the Forest Service was due to increased activities in the field on Insect Control, Fire Control, Timber Management, etc.

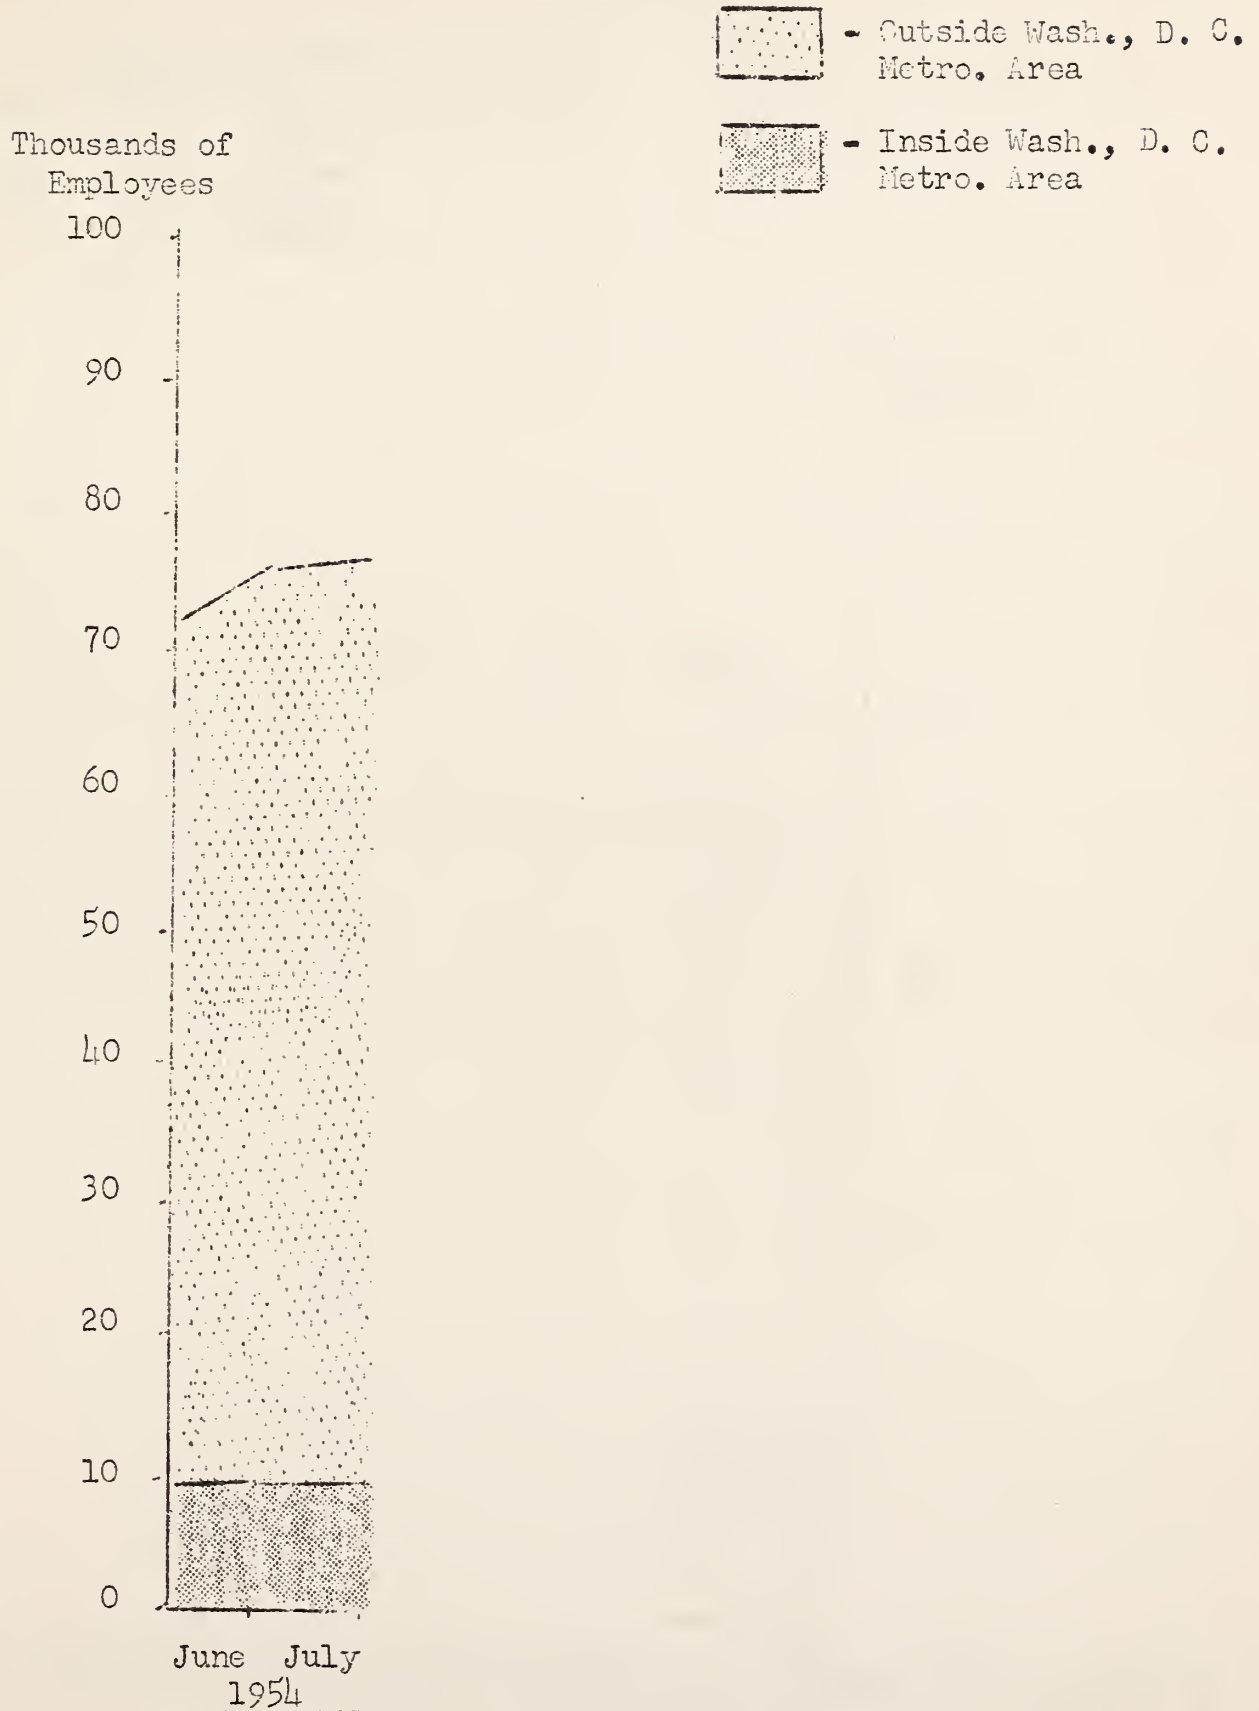

There were less Committeemen performing service during July which accounts for the decrease in the Farmers Home Administration.

TURNOVER

The separations from the Department for July 31, 1954, of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 2,016, or 3.2 percent, an increase of 0.2 percent since June 30, 1954. There were 95 separations or 1.0 percent in the Washington, D. C. Division of Employment
October 17, 1954

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full Time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-Time Employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent Employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W. O. C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payment.
5. Casual Employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on Leave Without Pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland, and Falls Church City.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: "ASC County Committeemen and County employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, Crop reporters, etc!"). The number of those persons will be reported annually, as soon as possible after June 30 of each year.

Full-time employment of the Department of Agriculture numbered 57,905 on October 31, 1954, as compared with 58,743 on September 30, 1954. Part-time and intermittent employment totaled 14,131 as compared with 14,476 on September 30, 1954.

Total paid employment on October 31, 1954, was 72,036, a decrease of 1,183 since September 30, 1954. This figure applies to total paid employment in the Department including employees outside the Continental limits of the United States and part-time workers as well as those regularly employed.

The increase in the Agricultural Marketing Service was due to seasonal employment in the Cotton Division. The decrease in the Federal Crop Insurance Corporation and the Soil Conservation Service was due to decreased seasonal activities in the field.

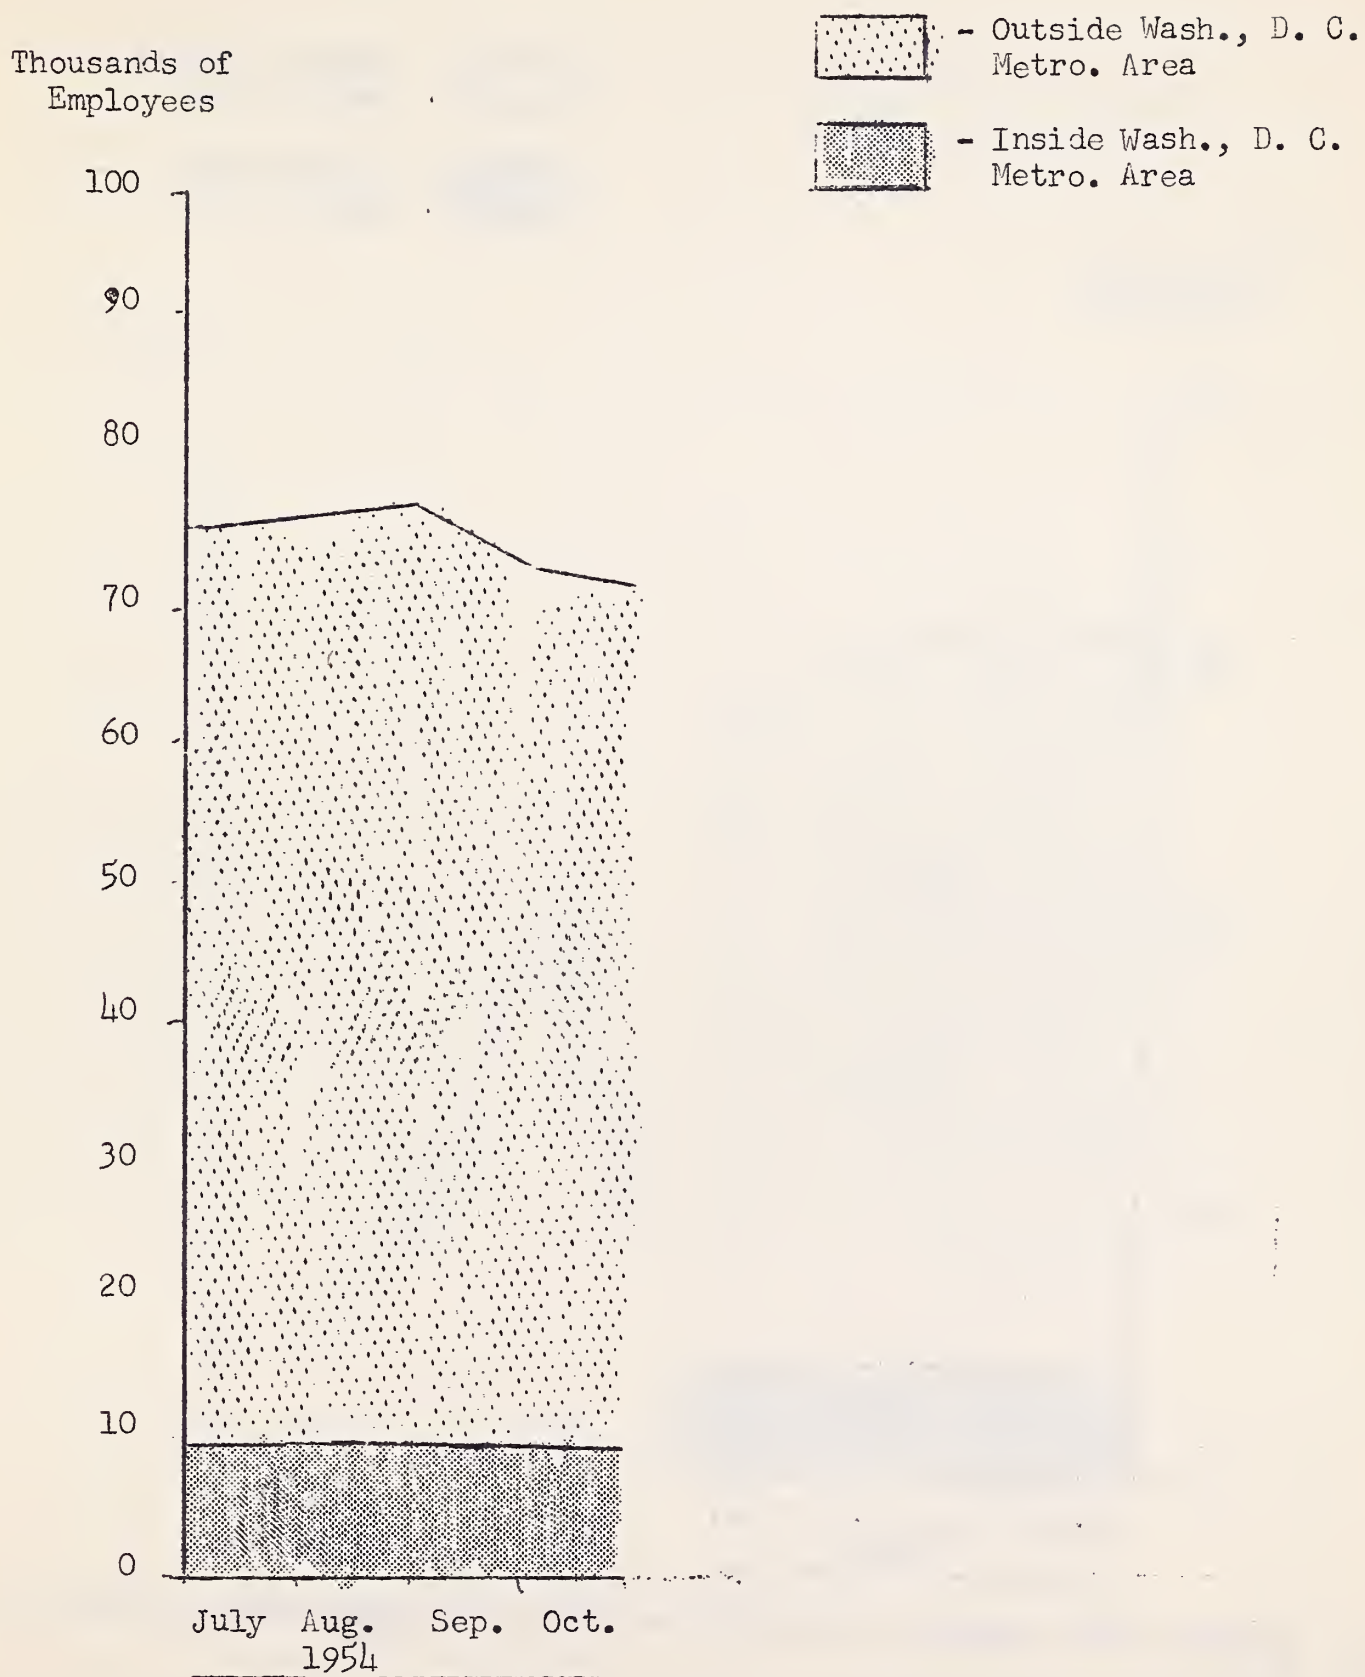

There were more Committeemen performing service during October which accounts for the increase in the Farmers Home Administration.

TURNOVER

The separations from the Department for October 31, 1954, of full-time personnel within the Continental limits of the U. S., including temporary employees amounted to 2,322, or 4.0 percent, a decrease of 5.3 percent since September 30, 1954. There were 114 separations, or 1.2 percent in the Washington, D. C. The greatest percentage of separations falls in the terminations group which consists of separation of temporary employees, termination of excepted appointments, etc.
